## Gleptoferron Labiana 200 mg/ml

Injectable solution

### Prevention and treatment of iron deficiency anemia

- ✓ Stimulates hematopoiesis
- ✓ Stimulates erythropoiesis

### Premium Iron: Absorption in 24h

- ✓ Improved molecule: gleptoferron iron
- ✓ Rapid absorption and high availability
- ✓ Collapsible plastic bottle

### Leader of antianemia drugs in the Spanish market

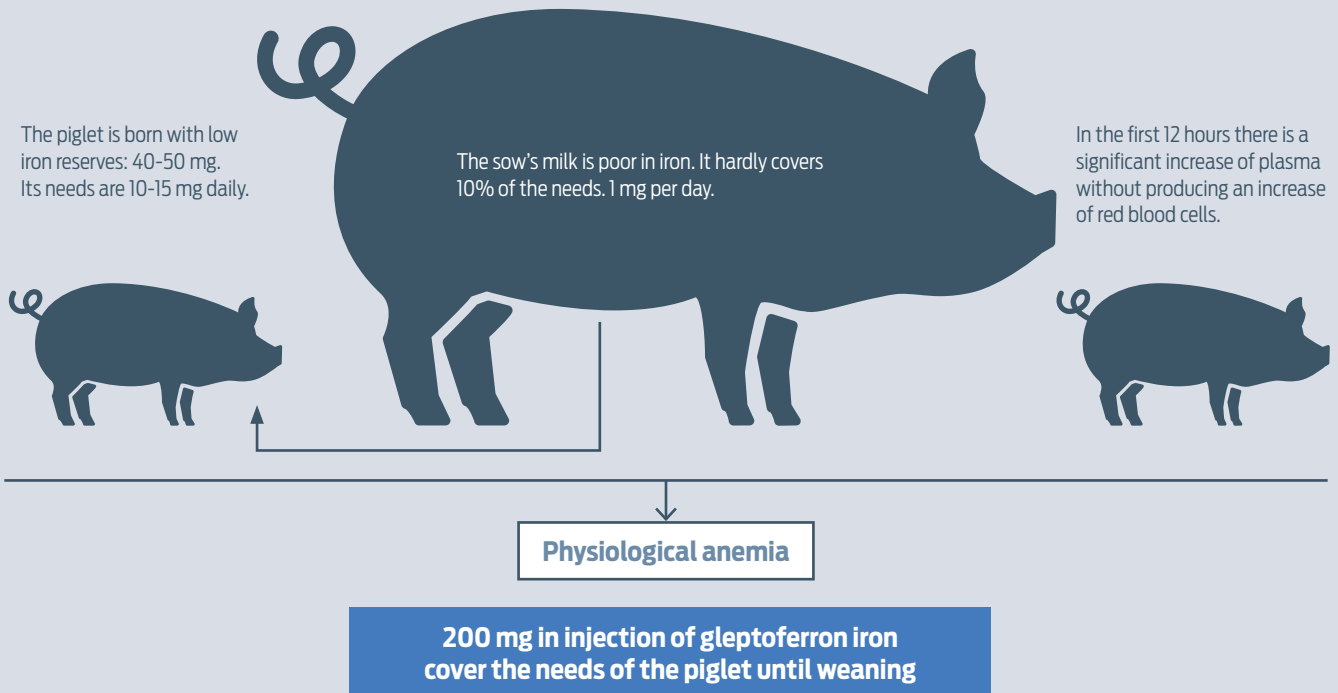

- ✓ Quality assured by Labiana, specialized in gleptoferron iron for over twenty years

**LABIANA**  
*always works*

## Prophylaxis against the iron deficiency anemia of the piglet is a must

The piglet's iron deficiency anemia can have serious economic consequences due to delays in growth and increase in the conversion ratio. In addition, it makes them more susceptible to diseases

### COMPOSITION PER ML

Iron (III) (as Gleptoferron 532.6 mg)..... 200 mg

### INDICATIONS

#### Porcine (piglets):

Prevention and treatment of iron deficiency anemia.

### DOSAGE AND ROUTE OF ADMINISTRATION

Use only automatic injection equipment.

The recommended dose is 200 mg of gleptoferron iron per animal, which corresponds to 1 ml of Gleptoferron Labiana 200 mg/ml Injectable solution, by deep intramuscular injection.

The injections must be applied in the following manner:

- For the prevention of iron deficiency anemia, no later than the third day of the life of the animal.
- For the treatment of iron deficiency anemia, administer when the clinical signs of anemia are detected (normally within the first three weeks of the life of the animal).

### WITHDRAWAL PERIOD

**Meat:** zero days.

### CONTRAINDICATIONS

Do not use in the following cases:

- Hypersensitivity to the gleptoferron complex or any of the excipients.
- Liver and/or kidney pathologies.
- Do not administer to piglets suspected to suffer from deficiency of vitamin E and/or selenium.
- Do not use in clinically diseased animals, especially not in case of diarrhoea.

### SPECIAL PRECAUTIONS FOR STORAGE

This veterinary medication does not require special storage conditions.

### PRESENTATIONS

100 ml and 200 ml HDPE/LDPE bottles.

Registry no. 3575 ESP

Medication subject to veterinary prescription.

Administration under control or supervision of the veterinary.
